Metallurgia — Index to Volume 54

JANUARY — DECEMBER 1987

A

Aerospace technology brought down to earth — a preview of Aerotech '87 ... 466
Advances in extrusion technology benefit aircraft industry ... 271
Advances in metal forming: materials technology ... 464
Application of statistical process control ... 14
Application of the levitation casting process ... 446
Automatic forge line completed for manufacturing oil-field equipment ... FS2
Automated Phoenix from heat-treater's reconstruction 113
Axial closed-die rolling — hot forming process for the manufacture of axially symmetrical forging ... 59

B

Birmingham conference to highlight metals thermal processing ... 343
Borides, their properties and uses ... PS16

C

Chemical analysis — its role in SPC ... 367
Combined HIP/Heat-treatment — a focus of attention 398
Commercial heat-treatment — finance, quality and technology ... 305
Continuous casting: plant and processes international 189
Contract computing in the metals industry ... 86
Control systems — islands of automation can now be linked ... 209
Controlled atmosphere treatments: equipment technology in action ... 358
Controlled atmospheres — 50 years on ... 356

D

Demonstration scheme brings energy benefits for drop forger ... 419
Development of instrumentation for vacuum furnaces 214
Developments and experience with sealed-quench atmosphere furnaces ... 348
Developments in moderate-to-low HCC plants ... 187

E

Electricity puts PEP into metal industries ... 16
Energy awards: GEM awards spotlight metals firms ... 130
Energy saving: recent advances in focus ... 238
Environmental control & safety: equipment and services in action ... 282
Eventful year and encouraging signs for UK forgers ... FS1

F

Fibre technology processes optimise materials and product requirements ... PS12
Focus on furnaces, heat-treatment and related equipment and manufacturing technology ... 191
Forge capabilities: guide to companies' plant, processes and products ... FS28
Forge development, Ring roll mill ... 504
Forge line completed, Automatic ... FS2
Forger, benefits for drop ... 419
Forger, demonstration scheme brings energy benefits for drop ... 419
Forgers, Eventful year for ... FS1
Forges, British, innovation in ... 45
Forging ahead in CAD/CAM automation ... 97
Forging: application of statistical process control ... 14
Forging Congress review ... 4
Forging equipment buyers' guide ... FS20
Forging, fully automatic hydraulic plant for warm ... 456
Forging of ball- and roller-bearing races ... 462
Forging supplement: innovations, plant, services — in action ... FS7
Forging Today ... 64, 98, 151, 205, 256, 341, 382, 442, 496, 528

FS — Forging Supplement with July Metallurgia

Forging today: simulation of metalforming ... 204
Forgings, axially symmetrical ... 59
Fully automatic forging of ball- and roller-bearing races ... 462
Fully automatic hydraulic plant for warm forging ... 456
Furnace refurbishment — specialist service for energy efficiency ... 233
Furnace news ... FUS1
Furnace equipment buyers guide ... FUS4
Furnaces — equipment, materials, services ... FUS2
Furnaces Workshop '87 ... 207
Furnaces Workshop '87 Review ... 494

G

Gas firing — plant and process in action ... 422
GEM awards spotlight metals firms ... 130
Group developments boost contract heat-treat capability ... 534
Guide to companies' plant, processes and products FS28

H

Heat sources: plant developments and process applications ... 241
Heat-treatment: automated Phoenix from heat-treater's reconstruction ... 113
Heat-treatmen, focus on ... 191
Heat-treatment group invests in service for a growing market ... 119
Heat-treatment in action — process and equipment technology ... 120
Heat-treatment: what's new around the industry ... 316
High emissivity coating gives major improvements in furnace performance ... 75
High pressure flexible die forming of sheet metal ... 459
Hi-tech processes and equipment — developments and future prospects ... FUS35

I

Incalloy alloy MA956 for high temperature industrial applications ...
Induction heating shows benefits in heat-treatment and metal forming ... 257
Induction heating quality assurance monitoring system 530
Information management in a metallurgical testing laboratory ... 535
Innovation in British Forges ... 45
Innovations, plant, services — in action ... FS7
Inspex '87, international quality campaign at ... 140
International expansion for Consarc ... 158
International quality campaign at Inspex '87 ... 140
Investment casting industry looks to the future ... 26
Ion implantation for the production tooling industry 162

K

Key issues addressed at Droitwich conference ... 528

L

Latest titanium alloys address specialise engineering needs ... 72
Launch of a new high technology company ... 153
Light alloys and extrusion: around the industry ... 274
Lower through-cost steels for closed-die forging applications ... 50

M

Medium frequency furnaces benefit metal melting ... 19
Melting and holding furnaces — around the industry 24
Metal injection moulding extends P/M's range ... PS20
Metallurgy in aerospace: developments around the industry ... 470
Metals companies score in electricity supply industry awards ... FUS42
Metlab 140, 285, 430, 535
Midlands companies score in power awards ... 401
Modern instrumentation leads to improvements in furnace efficiencies ... 395
Modern modular building techniques for heat-treatment furnaces ... 532

PS — Powder Metallurgy Supplement with November Metallurgia

N

New horizons in quenching media and systems ... 313
Nickel alloys show benefits on offshore platforms ... 67
Nickel based alloys: news and recent advances ... 70
Nickel foam integrated piston helps power diesel truck 69
North-West metals industry ... 325

O

"Oil quenching" in nitrogen gas ... FUS34
Optimised sintering in nitrogen-based atmospheres — the Nitrazone approach ... PS26

P

P/M components production — extending shape capability ... PS1
P/M group highlights technology advances ... PS31
P/M injection moulding extends process versatility ... PS18
Powder metallurgy: around the industry ... PS34
Process control — equipment technology in action ... 218
Process developments put metal forming in a spin ... 454
Production of water and gas atomized powders ... PS6

Q

Quality testing — around the industry ... 371
Queen's Awards for Export and Technology — 1987 275
Quenching media and systems, new horizons ... 313

R

Refractories: materials in application ... 76
Regenerative furnace shows energy savings in metal forming ... 420
Resilience is the key to West Midlands metals industry development ... 175
Ring roll mill — a highlight of new forge development 504

S

Safeguarding the operation of vertical presses ... 280
Selection of gaseous atmospheres in fluidized bed furnaces ... 353
SIFE holds AGM ... 207
Simulation of metalforming ... 204
SPC in heat-treatment ... 362
Sub-contract heat-treatment — a specialist business ... 402
Surface treatment of sintered metal components ... PS30

T

Technological expertise extended in high alloy steel powder metallurgy ... PS10
The heat is on for Cincinnati show ... 389
Thermal processing: around the industry — equipment, process technology and services ... 405
Tools and dies — a key element in P/M production ... PS14
Trends and developments in mesh-belt conveyor sintering furnace design ... PS22

V

Vacuum furnaces used in sintering rare earth magnets PS28
Vacuum technology in action around the industry ... 166

W

West Midlands: news and technical developments around the industry ... 175
What are the new materials? ... 510
Working for quality — BS5750 ... 361

FUS — Furnaces Supplement with December Metallurgia

AUTHOR INDEX

Bailey, R. ... 535
